

## **Junior Handling critiques**

### **6 – 11 years**

Porscha Rault - Very good young handler, confidence is key, show off your dog, smile and don't be afraid to speak to your dog. Just need to make a note of the points of the dog too. Very nice straight lines and turns, just sharpen those corners. My second in the class.

Sophie Bowring BJH - Very good young handler, shows off her dog well, speaks to him continuously which is good. Remember to smile also remembered the points of the dog that were asked. Very nice straight line and sharp corners, moved with the dog very well. Will be a handler to watch. My first in the class.

Ada Simmons - Budding young handler! Very eager to tell you about her dog and constantly smiling! Focus was solely on the dog which is superb, tried her best and did very well. Will be wonderful to see her flower in the learning stages of her handling.

### **12 – 16 years**

Megan Lucas - Another budding young handler. Was gentle with the dog throughout. Just needs to go over patterns and be confident with yourself and the dog and smile. On the table just needs to make sure the dog's position is kept and points of the dog are known. Handler with much potential! Practice makes perfect. My second in the class.

Samantha Whalley - Very confident young handler. Had to handle a young, bouncy, energetic dog and did so very well. Was calm, cool and collected throughout handling the dog. On the table just needs to make sure the dog is kept stood and positioned correctly. Make a note of the points of the dog. My first in this class.
