## Utility

### Boston Terrier

L: UG3, BOB 1st Simmons Wildax Stravinsky At Kaladash d,15 mnths Smart BLk/white youngster with lovely head and expression with square proportions, well defined stop, dark round eye, neat erect ears. Nice over the shoulder, clean forelegs and small compact feet. Deep brisket and well ribbed. When stacked he tends to slope away on his topline but when he free stands has a lovely topline. Took him a little while to settle but when he did, had a nice easy stride.

## Tibetan Terrier

P: UGP 1; BPIB 1st Martels Majikcharms Dynamic Dude, d, 9mnths.blk/white. Nicely balanced proportions with square outline. Masculine head, dark pigmentation and good strength to jaw. Muscular clean neck into well laid shoulders and balanced length of upper arm, filled forechest and good depth of brisket for age. Level topline, short coupled, high tailset and good rear angles. Sadly he has lost the coat from inside his hindquarters which does detract slightly when he is moving away but a lovely smooth mover in profile. Hope his coat grows back quickly to complete the picture.

L: Le Moignan Waterley Moneypenny ,b, 14mnths blk /white immaculately presented, lovely square outline and balance. Super feminine head with dark eye correct expression, strong medium neck into well laid shoulder still to fill a little in forechest and mature in brisket. Level topline with slight arch to loin. good tailset. Nice mover with good reach.

O: UG2, BOB 1st Le Moignan CH Waterley Skyfall PDH ,d,5yrs. Lovely class with two very similar males. Square outline and in correct double coat with slight wave. Masculine head, good width of skull with correct stop. Strong muzzle, black nose, muscular neck into well laid shoulders and balanced length of upper arm, straight forelegs and slight slope to pasterns and large feet. Well sprung ribs to firm topline with slight arch to loin, well feathered tail set high. Good reach of stride in profile.

2nd Wysers Majikcharms Mr Casanova d, 2yrs It really was a case of nitpicking between these two as they were so alike, I was not surprised to see they were father and son. I just felt that first placed had the edge in profile movement today.

## French Bulldog

O: UG4, BOB 1st Brebans Chamelia Salted Caramel 2yrs male with classical shape and outline, balanced non exaggerated head with well placed bat ears which he used well, dark expressive eyes, good finish of mouth and open nostrils. Well filled front and forechest with strong boned forelegs to small feet, would have preferred a little more shape to topline to complete the picture.

## Shih Tzu

LD: 1st De La Cours Santosha Polar Start, d .2yrs Black/white of nice size and length. Very showy. Appealing head with dark round eye, black pigment. Plenty of width between eyes. Good length to height proportions. Well filled in forechest and ribbed well back to firm topline. Strong hind action.

OD: UG1 , BOB 1st De La Cour Santosha Only After Eight ,d 2yrs presented a balanced outline and well presented full coat. Masculine head, large dark eyes, well spaced, wide muzzle. Strongly built throughout in hard condition. Good length of neck with slight arch to neck into well laid shoulders, broad chest with well sprung ribs, strong over the loin and firm croup to well muscled quarters.

High set tail carried correctly over the back. Lovely mover showing full pads on the away and typical arrogant head carriage in profile.

OB: 1st De La Cour Cavateena Whispering Sands b, 2yrs Nice for size and balance , well presented in super coat. Well placed dark eye, broad eye. Would prefer slightly cleaner over the shoulder but good upper arm and well ribbed back to level topline. Still to strengthen in quarters a little when going away but nice mover in profile.

Min Schnauzer

L BOB : 1st Kennedy -Cook Lottie Northern Princess ,b, 18mnths blk/sil Nice size and length giving a square appearance. Dark oval eye framed by bushy eyebrows. Keen expression. Black pigment and strong muzzle. Ears still to settle a little. Neck of good length into level topline.
